DETAILED ACTION

Response to Amendment

1. The reply filed on 6-16-05 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

There has been no indication on the record as to what statutory class of invention the "system" claims belong to (see MPEP 2106.IV.B). The statutory provision for this requirement may be found in 35 U.S.C 101 that recites the statutory classes of invention. Applicant indicates a right to claim hardware or a combination of hardware and software. While this is true, these may lie in separate statutory classes of invention. Is this a hardware (apparatus) claim? Is this a software claim (which is not patentable per se)? Is this a method claim? The statutory class of invention being claimed must be indicated on the record. The terms recited in the claim including "component" do not clearly differentiate an answer.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE** (1) **MONTH or THIRTY** (30) **DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
